

Too Young

Blue System

Feel my little heart
It's broken just tonight
Every little teardrop, baby,
Understand the game
Queen of broken hearts
Oh, you win and lose
Now, take it apart
Oh, yeah, it's extasy - next to me
Oh, baby, it's fantasy, just with me
Come and hold my hand - understand the name of the game

Too young, too young to get steady
Too young to fall in love
Too young, too young to get ready
Too young for that stuff

How can I be sure ?
Oh, my lonely heart
Some- some hearts break apart
Time is on my side - make it your own
There must be a way - feeling good alone
Oh, it's extasy - next to me
Oh babe, it's fantasy - just with me
Come and hold my hand - understand the name of the game

Threat me like a child, babe
If my love could shine
Cry for me, my baby
I almost lost my mind
Come and feel my heart babe
Next babe to your heart
Come on, come on baby
Try a start
