You'll Be My Hero

Blue System

Oh baby tonight you'll be my hero
The hero of my dream
Come baby, we'll start on level zero
It's like a movie scene

Don't cry, don't cry your heart to me Don't lose your sensuality Don't try to fool your biggest friend It's nothing you can mend when a love will end

I don't want to lose your heart tonight Anything is possible - i'll fight I'll give you all my energy Anything is possible

Oh baby tonight you'll be my hero We leave it all behind Baby, this life was minus zero You were so hard to find

Don't hide - don't hide oh what you feel
It's right - you give your heart to me
Don't lose - don't lose this silly game
Don't try another friend - you're losing at the end
