

## Risk It All

Blue

I could never fly, I was afraid to fall  
I would never swim, too far away from shore  
Never took the jump, without a safety net  
Never played the hand, was unsure of it  
Thought I was living, yeah  
But I was existing, aye  
And everything I got I tried so hard to find  
For you I'd leave it behind

If you had the world right now  
If you had it all worked out  
If you had it all to lose  
Why would you take time to choose?  
You already know by now  
For me there are no doubts  
Whether we rise, whether we fall  
I take one look at you, and I feel  
I feel like risking it all

If I asked you to run away with me right now  
Take a look around,  
What could you live without?  
Tell me everything,  
There's nothing more you need than to be here with me  
I thought I was living  
But you're what I was missing  
I was head strong way too long  
What was I thinking?  
Now I dive heart first into love

If you had the world right now  
If you had it all worked out  
If you had it all to lose  
Why would you take time to choose?  
You already know by now  
For me there are no doubts  
Whether we rise, whether we fall  
I take one look at you, and I feel  
I feel like risking it all

Could have my life the way you do  
I'd walk away from all I knew  
I'd turn my back and take the blame  
Tell me that you would do the same (you'd do the same)

If you had the world right now  
If you had it all worked out  
If you had it all to lose  
Why would you take time to choose?  
You already know by now  
For me there are no doubts  
Whether we rise, whether we fall  
I take one look at you, and I feel  
I feel like risking it all
