

# Walk Away

Blue

Is this masquerade finally over  
Can we put down the roles that we've played so many times  
Is this really the final curtain  
The end of the play  
Or will we just dance this dance we've danced again and again and again

Once again I walk away  
There's no turning back this time baby  
Once again I walk away  
With every step I leave you behind me  
Once again I walk away  
Determined this time you'll be sorry  
Once again I walk away  
But if you ask me you know that I'd stay

If we put out the sun and stopped it from shining  
Girl we both know  
We still couldn't be anymore in the dark  
Ooh there's no flashlight  
There's no insight  
As hard as we try  
Ooh we keep running round in circles  
Time after time, hello, goodbye

Once again I walk away  
There's no turning back this time baby  
Once again I walk away  
With every step I leave you behind me  
Once again I walk away  
Determined this time you'll be sorry  
Once again I walk away  
But if you ask me you know that I'd stay

Is this really the final curtain  
The end of the play  
Or will we just dance this dance we've danced again and again and again

Once again I walk away  
There's no turning back this time baby  
Once again I walk away  
With every step I leave you behind me  
Once again I walk away  
Determined this time you'll be sorry  
Once again I walk away  
But if you ask me you know that I'd stay

I walk away  
I walk away  
But I know that I'll be back again

Once again I walk away  
There's no turning back this time baby  
Once again I walk away  
With every step I leave you behind me  
Once again I walk away  
Determined this time you'll be sorry  
Once again I walk away

But if you ask me you know that I'd stay

Once again I walk away  
There's no turning back this time baby  
Once again I walk away  
With every step I leave you behind me  
Once again I walk away  
Determined this time you'll be sorry  
Once again I walk away  
But if you ask me you know that I'd stay
