

# Without You

Blue

I couldn't live without my cellphone,  
I couldn't live without my 4 x 4,  
I couldn't live without my credit card,  
I couldn't live without you.

Funny how the little things, we can't do without,  
Make you wonder somehow, how we did it before.  
When I found love, never knew that I needed love,  
Now I can't get enough of wanting it more and more.

And I spend most my days, finding different ways,  
Thinking how to say, Just how much I love you.

I couldn't live without my cellphone,  
I couldn't live without my 4 x 4,  
I couldn't live without my credit card,  
And I wonder what I did before.

Like your love, babe,  
If you ever take it all away,  
I wouldn't make it through another day,  
I couldn't live without you.

No I can't conceive, going back to how it used to be,  
You've affected my reality, and I need you like the air I breathe.  
I can't go back, Don't you know you hooked me up like that,  
It'll hit me a heart attack, if you ever should leave.

Spending most my nights, lost inside your eyes,  
Wondering how can I ever live without you  
Live without you beside my side.

I couldn't live without my cellphone,  
I couldn't live without my 4 x 4,  
I couldn't live without my credit card,  
And I wonder what I did before.

Like your love, babe,  
If you ever take it all away,  
I wouldn't make it through another day,  
I couldn't live without you.

I couldn't live without my cellphone,  
I couldn't live without my 4 x 4,  
I couldn't live without my credit card,  
And I wonder what I did before.

Like your love, babe,  
If you ever take it all away,  
I wouldn't make it through another day,  
I couldn't live without you.

The things we take in life for granted,  
We foresake.  
But I know, I can't do without the love we made,  
I will never break the promises I make,  
So hear me baby, when I say.

I couldn't live without my cellphone,  
I couldn't live without my 4 x 4,  
I couldn't live without my credit card,  
But most of all I couldn't live without you.

I couldn't live without my cellphone,  
I couldn't live without my 4 x 4,  
I couldn't live without my credit card,  
And I wonder what I did before.

Like your love, babe,  
If you ever take it all away,  
I wouldn't make it through another day.  
I couldn't live without you.
