

Mellow Song

Blur

I live in my street
I am a gilothene
Pull it away
In my machine
Where have I been
not you

She is star in my left time
it's a Nuckelhole low
Give in away time
to pass it out
Sun is so, well
god so

Is this where I am going to, well seeeee, well see, well see

I kill this sleep by my manual loop
Walking on sun on my onanue
Love with a Moon
Love you

I live in...

Is this...
