

Tell Me Tell Me

Blur

Tell me, tell me, tell me please
What is this that hovers me it's
Driving me to a state of hopeless
Having any sex at all
Hasn't any worth at all
Or is it just enough to bitch

The funny thing that makes me do
The things that I do to you
Oh I know they are so damn very tall
I'm in a state I can't explain
My mind is gone, my mind is gone
It seems so very little I can do

Cause all these things I want to know

[Chorus]

Tell me, tell me, tell me please [Repeat: 3x]
Won't you tell me please

I'm so full of emptiness
It's so hard to sustain the mess
I've no idea who I am at all
So tell me, tell me, tell me please
What is this that hovers me
Before I smash my head against the wall

Cause all these things I want to know

[Chorus: 2x]
