

# A Miracle

Blutengel

We're searching for answers every day  
(We're searching for answers every day)  
We lost our faith but still we pray  
(We lost our faith but still we pray)  
Our words like a grave and it fades to gray  
(Our words like a grave and it fades to gray)  
We're searching for reasons, reasons to stay  
(We're searching for reasons, reasons to stay)

We need a miracle to heal the pain inside  
We need a miracle to help us stay alive  
We need a miracle to heal the pain inside  
We need a miracle to help us stay alive

Surrounded by darkness by eternal light  
(Surrounded by darkness by eternal light)  
There's nothing to feel except for the flight  
(There's nothing to feel except for the flight)  
We're watching the sky with eyes open wide  
(We're watching the sky with eyes open wide)  
We're not able to fly never reaching the light  
(We're not able to fly never reaching the light)

We need a miracle to heal the pain inside  
(Surrender to me)  
We need a miracle to help us stay alive  
(Surrender to me)  
We need a miracle to heal the pain inside  
(Surrender to me)  
We need a miracle to help us stay alive  
(Surrender to me)  
We need a miracle...  
(Surrender to me)  
We need a miracle...  
(Surrender to me)  
We need a miracle...  
We need a miracle...
