

Another World

Blutengel

Red rain is falling on the streets
i close my eyes and feel the emptiness
inside my broken soul
darkness surrounding me
im on my way to another world
another world
another world

(what and wrong)?
did i fail
i lost my innocence
i lost my pain
did i fail

they are shadows in the dark
hunting me
dry to catch me
dry to catch me
dry to catch me

but there are you
i raise my head and look in to your eyes
will you save me
will you save me

there are you
i raise my head
feel your touch on my skin
will you save me
will you save me

and we fly
fly away
fly away to another world...
bring me closer to your soul tonight

and we fly
fly away
fly away to another world...
don't ever let me loose myself again

and we fly
fly away
fly away to another world...
bring me closer to your soul tonight

and we fly
fly away
fly away to another world...
don't ever let me loose myself again

will you save me
will you save me
will you save me
will you save me

and we fly

fly away
fly away to another world...
bring me closer to your soul tonight

tonight tonight tonight

and we fly
fly away
fly away to another world...
don't ever let me loose myself again

tonight tonight tonight

and we fly
fly away
fly away to another world...
bring me closer to your soul tonight

tonight tonight tonight

and we fly
fly away
fly away to another world...
don't ever let me loose myself again
