

## Iron Heart

Blutengel

Every time I see you  
I only see you cry  
You can't understand  
What you did to me

And I always try to hide  
My aggression deep inside  
I feel your helplessness  
But I'm not that strong

You took my soul  
But you don't understand  
It's so fragile and so weak

You killed my heart  
With your burning ignorance  
But you still think that I'm the one  
I'm the one to blame

I want to run away from you  
Want to leave the tears behind  
You know there's nothing you can do  
But please keep me in your mind

I can't stand your iron heart  
I break the chains and run away  
I hate every word you say  
You can never make me stay
