

## Night of Sin

Blutengel

I can feel you skin on mine  
I smell your body I smell your lust  
We play this game of forbidden pleasures  
I feel your warm lips on my mouth

We know everything is wrong  
But you can't stop touching me  
We're diving in a sea of lust  
I wish this moment will last forever

We're praying for salvation  
But we can't regret our sins  
We're only slaves to our temptation  
And we hurt the one we love
