

Out Of Control

Blutengel

This was the day I will never forget.
I said all these words I wish I never had.
We started hurting each other, we started to fight.
Too many tears and too much pain inside.

You never left me,
You never felt the way I do - you said.
I will always love you,
I will always be the one for you - I said.

|: Everything you said to me felt like needles on my skin.
Everything you did to me felt like a knife in my heart.
Did you ever know what you did to me'
Did you ever know, did you ever know'

|: Everything changes, everything is out of control.
Love turns to hate and the things that we shared
are just memories that we've to dispelled
