

# Point of No Return

Blutengel

I'm dreaming of a joy ride  
To a place i've been before  
A place of endless colours  
Wont you come with me tonight  
There is no need to hesitate  
I'm with you on this trip  
This is the new experience  
Take my hand and close your eyes

We can stay here forever  
No one will find us here  
All my friends have been here  
And they wont return

Let me take you on a ride  
Like angels we will fly  
To the point of no return  
To a place where we can hide  
We are diving in an ocean  
We are climbing all the mountains  
We leave everything behind  
For a never ending dream

What have you done my angel  
Please open your eyes  
You've gone too far from me  
But i wont let you down

I see a white light  
Everything so beautiful  
I hear voices from behind  
But i want to touch the light

Let me take you on a ride  
Like angels we will fly  
To the point of no return  
To a place where we can hide  
We are diving in an ocean  
We are climbing all the mountains  
We leave everything behind  
For a never ending dream

Let me take you on a ride  
Like angels we will fly  
To the point of no return  
To a place where we can hide  
We are diving in an ocean  
We are climbing all the mountains  
We leave everything behind  
For a never ending dream
