

Save Us

Blutengel

We all know what we have done
Went completely wrong
We closed our eyes to all
The misery we spread
We're killing each other
Humanity is dead

Save us, save us from the evil
Save us from ourselves
Deliver us from the life we live
And forgive us all our sins
Save us, save us from the evil
Save us from ourselves
Deliver us from the life we live
And forgive us all our sins

We poisoned the world
With the blood we shed on the battlefield
We're losing any sense
Of kindness and morality
And some of us don't want to live this way
And some of us know life's a gift
And they start to pray

Save us, save us from the evil
Save us from ourselves
Deliver us from the life we live
And forgive us all our sins
Save us, save us from the evil
Save us from ourselves
Deliver us from the life we live
And forgive us all our sins

Save us from ourselves, save us from ourselves.

Save us, save us
Save us, save us from the evil
Save us from ourselves
Deliver us from the life we live
And forgive us all our sins
Save us, save us from the evil
Save us from ourselves
Deliver us from the life we live
And forgive us all our sins

And forgive us all our sins
Save us from ourselves
And forgive us all our sins
Deliver us from the life we live
And forgive us all our sins
