

## Silent Tears (For You)

Blutengel

I know the darkness is your leader  
There's no light inside your heart  
I can't forget that your depression  
Breaks my love apart  
I spread my wings against your shadow  
My love can't really light your shades  
And I wish I could forgive you  
But every day is still the same

I feel our love is not forever  
Seems like a never ending one  
You can't repair my bleeding soul  
'cause no one hurts like you , my dear  
and I will never fly with you  
never you should see me cry  
I never told my dreams to you  
You could never see in my heart

But in my tears dissolves our heaven  
All my love and all my dreams  
I realize I can't stand your coldness  
I realize too late, my dear
