

Silent Tears (For You)

Blutengel

I know the darkness is your leader
There's no light inside your heart
I can't forget that your depression
Breaks my love apart
I spread my wings against your shadow
My love can't really light your shades
And I wish I could forgive you
But every day is still the same

I feel our love is not forever
Seems like a never ending one
You can't repair my bleeding soul
'cause no one hurts like you , my dear
and I will never fly with you
never you should see me cry
I never told my dreams to you
You could never see in my heart

But in my tears dissolves our heaven
All my love and all my dreams
I realize I can't stand your coldness
I realize too late, my dear
