

Solitary Angel

Blutengel

You can see
The night is dark and cold
Rain is falling
And then he appears

He's so beautiful
And he's a wise man
He brings the change
Angel in human shape

"Just follow me
Come into my world
Believe in my sanctuary"

No more pain
For the people on Earth
No more wars
He's the saviour

He brings love
To our cold hearts
No more fear
Believe in his sanctuary

He's the solitary Angel
And he's not from Heaven sent
He tries to bring the peace to the world
He brings salvation and he brings love
The world still needs another leader
And he's the only one to be
He can see into your soul
He leads you to a better life
