

The Lost Children

Blutengel

See the fire burning in our eyes
Hear us crying out a million cries

Listen to your heart and tell us what you wanna be
Don't you wanna live forever
Don't you wanna be free

We're the lost children, can you hear us calling
Voices of doom echoing in your head
We're the lost children can you hear us singing
Songs of despair - we're infecting your soul

We're the lost children, can you hear us calling
Voices of doom echoing in your head
We're the lost children can you hear us singing
Songs of despair - we're infecting your soul

Enjoy the night, lick the holy blood from our hands
You're something special and it's time to understand
Don't feel insecure, there's no way back
Darkness is your friend and your friend wears black

We're the lost children, can you hear us calling
Voices of doom echoing in your head
We're the lost children can you hear us singing
Songs of despair - we're infecting your soul

We're the lost children, can you hear us calling
Voices of doom echoing in your head
We're the lost children can you hear us singing
Songs of despair - we're infecting your soul

Listen to your heart and tell us what you wanna be
Don't you wanna live forever
Don't you wanna be free

We're the lost children, can you hear us calling
Voices of doom echoing in your head
We're the lost children can you hear us singing
Songs of despair - we're infecting your soul
