

Vampire Romance Part II

Blutengel

I put my finger on my lips
Close your eyes and feel my lust
There's a pain inside my kiss
I'm only looking for your blood
I'll show you what's the price
So darling come with me this night
We've to spread our wings and fly
Into the darkness without light

We want to hold you in our arms
And you can't resist our tenderness
We're so mysterious

We want to bite you we want your blood
And you can't resist our bloody lips
Come into our land
