

Ghost Town

Bo Bruce

Can you bring me air
Where I have been
Give me a heart to feel humour

You're like the sun
I'm starting to feel
Where I've been numb
I can't see what's real

So say you'll help me find it
It's been buried
So far under the ground
Deep where noone's around
It's a ghost town
Say there's somebody there
Be my breath I need air
It's a ghost town

Can I hear your voice
From inside these walls
I have begun to feel silence
To stand here and say
Is like battling
Giants
So say you'll help me
Fight them

It's been buried
So far under the ground
Deep where noone's around
It's a ghost town
Say there's somebody there
Be my breath I need air
It's a ghost town
