

## Blues Blues

Bo Diddley

All I wanna be, baby  
Is just be around you  
All I wanna be, baby  
Is just be around you  
I like to hug and kiss you  
And watch ev'ry little thing you do

Don't pay no attention  
To ev'rything people say  
Don't pay no attention  
To ev'rything that people say  
All I want, pretty baby  
Is just to be with you both night and day

Just tell me, darlin'  
If you appreciate my company  
Just tell me darlin'  
If you appreciate my comp'ny  
All the time, baby  
You I will be

Come on  
Come on, little girl, just come on  
Come on  
Just come on little girl, come on  
You know I can't leave you  
I can't stand to see you be alone

I wanna be with you  
I wanna be with you day and night  
I wanna be with you  
I wanna be with you both day and night

Just stand here and watch me  
You'll see that I'm gonna treat you right.
