Our Love Will Never Go

One kiss from your lips Set my soul on fire The touch of your hand Drives me wild Now, I'll know, oh, ooh, ooh Our love will never grow

So darling, as I lay here in my bed Dreaming and thinking All the things you said Now, I know, oh, ooh, ooh Our love will never grow

So give me one chance to prove my love I'll do anything for you Your love, I'll love I, I, I know, our love will never grow

One kiss from your lips Drives me wild Sets my soul on fire **Bo Diddley**
