

NEGA DOLA (?? ??)

Boa

I'm going crazy

Yeah yeah yeah
Look somewhere else, good luck
Got it? Got it?
It's so boring, those typical words and looks

It won't work with me
No more chances for you, no
I don't wanna deal with you, stop right there
I'm going crazy (Ha ha bruh)

Again blah blah, you throw out some words
Words that I don't care for
Easy words from your tongue, love love

You're just too typical
If I'm being honest, I just don't like you
What, did you expect me to say something else?

Yeah yeah, it's only you who feels captivated
Try hiding your feelings a bit, you're still an amateur
I can see right through you but you act like nothing's up
I'm sick of letting it pass

I had fun for a bit
I got it so that's enough
Let's not see each other again, good bye

Look somewhere else, good luck
Got it? Got it?
It's so boring, those typical words and looks

It won't work with me
No more chances for you, no
I don't wanna deal with you, stop right there
I'm going crazy

Too many guys like you
I meet one an hour and there's still a lot left
Meaningless relationships
You're exactly that, don't be mistaken
Oh boy
You provoked my curiosity
But that's about it

Don't say anything else
Put it away, that face
I'm too bored to even look at you now
You can wait but my heart won't change

I had fun for a bit
I got it so that's enough
Be cool and say good bye

Look somewhere else, good luck
Got it? Got it?

It's so boring, those typical words and looks

It won't work with me
No more chances for you, no
I don't wanna deal with you, stop right there
I'm going crazy

You're not a child, why are you rushing me
Do you want a piece of candy or something?
You're not even a man
It's a waste of time to look back at you
Yeah yeah yeah

Look somewhere else, good luck
Got it? Got it?
I can't believe it, I can't even laugh, piss off now

It won't work with me
No more chances for you, no
I don't wanna deal with you, stop right there
I'm going crazy

I'm going crazy
I'm going crazy
