

# Scream

Boa

Underneath a setting sun  
Something wicked your way comes  
Who am I? Just a dream  
Sent to take you, shake you, make you scream

Try to see - there - behind my eyes  
Be in me - ah - you're hypnotized  
Such a moon - rare - we shouldn't waste  
Very soon - ah - I'll have a taste

Should I let you awaken?  
I can't resist!  
Look around you  
You're forsaken

You scream  
But there's nobody to hear  
It doesn't matter  
It's only you and me and all of your fears  
So scream  
A Halloween serenade  
Illusions shattered  
Wait 'till you're really afraid  
You're gonna - ah - ah!

Run and hide - please - from my embrace  
In the night - ah - I love a chase  
Tell me no - tease - before we kiss  
Nice and slow - ah - I live for this

Should I let you remember?  
I can't resist!  
Gonna haunt you forever

You scream  
But there's nobody to hear  
It doesn't matter  
It's only you and me and all of your fears  
So scream  
A Halloween serenade  
Illusions shattered  
Wait 'till you're really afraid  
You're gonna - ah - ah!

Underneath the setting sun  
Something wicked your way comes  
Who am I? Just a dream  
Sent to take you, shake you, make you scream

Try to see - deep - behind my eyes  
Destiny - ah - won't be denied  
Don't you know - sweet - you're what I need  
Flesh and bone - ah - you're gonna bleed

Should I let you awaken?  
I can't resist!  
Look around you

You're forsaken

You scream  
But there's nobody to hear  
It doesn't matter  
It's only you and me and all of your fears  
So scream  
A Halloween serenade  
Illusions shattered  
Wait 'till you're really afraid  
You're gonna - ah - ah!

You scream  
But there's nobody to hear  
It doesn't matter  
It's only you and me and all of your fears  
So scream  
A Halloween serenade  
Illusions shattered  
Wait 'till you're really afraid  
You're gonna - ah - ah!
