

# Light Up My Way

Bob Catley

I try so hard to understand  
If I have done the best I can  
Shouldn't life treat me better than this  
I never hid within the crowd  
I always spoke my mind out loud  
Shouldn't I deserve better than this

Take me where the hope still grows  
Take me to the land where dreams still live  
I have never seen the light  
And known what's right  
Until you came along  
Show me where the hate don't rule  
Show me where the tears just come from joy  
I have never seen the sun  
The sky is gone  
Will you show me all  
And light up my way  
Light up my way

I'm afraid of what I will find  
In the darkest corner of my mind  
Shouldn't my rescue come soon  
My time is running out  
Getting more and more doubts  
That I will be saved in this life

Take me where the hope still grows  
Take me to the land where dreams still live  
I have never seen the light  
And known what's right  
Until you came along  
Show me where the hate don't rule  
Show me where the tears just come from joy  
I have never seen the sun  
The sky is gone  
Will you show me all  
And light up my way  
Light up my way

I've tried so hard to understand  
If I have done the best I can  
Shouldn't life treat me better than this  
I never hid within the crowd  
I always spoke my mind out loud  
Shouldn't I deserve better than this

Take me where the hope still grows  
Take me to the land where dreams still live  
I have never seen the light  
And known what's right  
Until you came along  
Show me where the hate don't rule  
Show me where the tears just come from joy  
I have never seen the sun  
The sky is gone  
Will you show me all

And light up my way  
Light up my way
