

The Happy Club

Bob Geldof

Every morning
'Bout the break of day
Every evening
She comes up and she says

She gets up then she goes outside
She don't know what she does
But it feels alright

She says I, I'm a sunny girl
Yeah, I'm feeling good
And it's a shiny world
Well, here she comes

She feels good, she feels great today
When I asked she said
"Hey, it's the happy club way"

I don't know
I don't know what to do
But I know if I could
Then I would do too

I feel great, I feel fine today
I joined the happy club
And the happy club says
I feel good I feel great today
Now, I know what to say
