

I Know A Place

Bob Marley & The Wailers

1. When the whole world lets you down
And there's nowhere for you to turn
`Cos all of your best friends
let you down
 2. Then you try to accumulate
But the world is full of hate
So all of your best thoughts
Just drift through space
- R: I know a place where we can carry on
I know a place where we can carry on
we can carry on we can carry on
we can carry on we can carry on
3. And it's people like you, people like me
People need to be free yeah
There's a place in the sun
Where there is love for everyone
Where we can be
- R: I know a place...
4. When the whole world lets you down
And there's nowhere for you to turn
`Cos all of your best friends
let you down
 5. Then you try to accumulate
But the world is full of hate
So all of your best thoughts
Just drift through space
- R: I know a place...
- We can carry on, we can carry on...
