

# It's Alright

Bob Marley & The Wailers

The sun shall not smite I by day  
Nor the moon by night.  
And everything that I do  
Shall be upful and right.

And if it's all night  
It got to be (all right!)  
Talking to you (all night!)  
It got to be (all right!)

Mamma don't lose this one  
I'm the lucky one under the sun.  
If you make me move  
Then you know we got the groove.

How do you like it?  
How do you like it?  
Do you, do you, do you, do you?

If it's all night  
Got to be (all right!)  
I'm working hard (all night!)  
Got to be (all right!)

See (all night!) I work for my pay.  
(All right!) Night and day.  
(All night!) Work for my pay.  
(All right!) Night and day.

Can't you feel it?

If it's, if it's, if it's  
It's got to be (all right!)  
If it's (all night!)  
If it's (all right!)

Do you like it?  
Water cold.  
?

Make it back.  
Tear-a-drop.  
Wipe the tears from your eyes.  
And don't you cry.  
Wiping my lonely tears baby.  
I tell you what.

If it's all night  
Got to be (all right!)  
If it's all night  
Got to be (all right!)
