

# Treat You Right

Bob Marley & The Wailers

What's wrong girl  
You don't treat me like you used to do  
Everything about you is brand new  
You've changed  
It's mighty strange  
You've lost the greatest smile and you won't tell me why  
It's plain to see the love light's gone now in your eyes  
The world we built is dangling on a broken rope  
But I've got hope oh oh oh I've got hope  
I hope and pray that one day girl you'll see the light  
And then you'll know that all I want is just to Treat You Right  
Baby just to Treat You Right (Treat You Right)  
Baby just to Treat You Right (Treat You Right)  
Baby just to Treat You Right (Treat You Right)  
Treat You Right  
What's wrong girl ooo wee  
Were aren't as close as we used to be  
Is my imagination playing tricks on me  
You've changed  
Your actin strange  
You've lost the greatest smile and you won't tell me why  
It's plain to see the love light's gone now in your eyes  
The world we built is dangling on a broken rope  
But I've got hope oh oh oh  
I hope and pray that one day girl you're gonna see the light  
And then you'll know that all I want is just to Treat You Right  
Baby just to Treat You Right (Treat You Right)  
Baby just to Treat You Right (Treat You Right)  
Baby just to Treat You Right (Treat You Right)  
Baby just to Treat You Right
