

# I Am Vision, I Am Sound

Bob Mould

I am vision, I am sound  
I am vision, I am sound  
I am vision, I am sound  
I am vision, I am sound  
I am vision, I am sound

Give me something to believe in  
Give me reason, give me space  
Give me somewhere I can run to  
Give me 'cause to leave this place

Yes, I melted when I met you  
Yes, I fell in right away  
Yes, I'll come to you if you say  
Yes, I will come today

You are light that killed the shadow  
You are love when I was down  
You were faith when I questioned  
Everything I knew

I am what you always wanted  
I am what will make you whole  
I am standing right beside you  
I am vision, I am sound

Give me something to believe in  
Give me something to believe in  
Give me something to believe in  
Give me something to believe in

Give me something to believe in  
Give me something to believe in  
Give me something to believe in  
Give me something to believe in

Give me something to believe in  
Give me something to believe in  
Give me something to believe in  
Give me something to believe in

I am vision, I am sound  
I am vision, I am sound  
I am vision, I am sound  
I am vision, I am sound
