

Back In A Us Made Car

Bob Rivers

Ohhh...

Used to drive a Honda C-I-V-I-C

Didn't sleep a wink at night

Auto-workers laid-off in Detroit last week

Man it's such a dreadful sight

I'm back in a US made car

You know how lazy we are, boys

Back in a US made car

Power steering, power windows, seats and brakes

It's bigger than the Astrodome

Drive it under 50 or the back-end shakes

God I hope it gets me home

I'm back in a US made car

You know how lazy we are, boys

Back in a US

Back in the Do-Less

Back in a US made car

Those foreign cars really knock me out

They leave Chevettas behind

They cruise right past all the screams and shouts

From GM unemployment li-li

Li-li-li-li-li-li-lines

Oh tow that Iacocca monster to my house

You didn't have to twist my arm

It's my patriotic duty to be helping out

Can't let the big three buy the farm

I'm back in US made car

A gallon don't go too far boy

Back in a US made car
