

# Kiss My Eyes

Bob Sinclar

Over, come over  
Over, come over  
Over, come over  
Over, come over

In the dark the dance begins  
The night is starting to sway  
Feel the beat of ecstasy inside your soul  
Pumping hard

Make believe that love is real  
And senses take control  
Let's be dangerous if only for one moment

Come and kiss my eyes  
Come and kiss my eyes  
Overcome we're overcome  
Come we're overcome

Over, over  
Come over  
Over, over  
Come over

In the dark the magic spins and we forget the day  
Feel the rush of energy inside your soul  
One 2 one

Now, take a chance that love is here  
And love is all we know  
We're watching one another  
Let's be dangerous live only for the moment

Come and kiss my eyes  
Come and kiss my eyes  
Over come we're overcome

Come we're overcome  
Come, mm

Come and kiss my eyes  
Come and kiss my eyes  
Over come we're overcome  
Come we're overcome  
Come, come, come
