

# We Are Everything

Bob Sinclar

Rise a soul relate the sun light him  
Start a little revolution come with me  
We are good to change us wish.....again  
Come together real voice sing, sing, sing, sing, sing  
We Are Everything and everyone is another time  
Open up your eyes, I've got a part, you pull up sunshine  
There it is, there it is, that magical feelings  
There it is, there it is, that magical feelings

Love is power, love is colour of light  
Love can break true although change that fight  
We are all injury people now that try to shine.  
Come together real voice sing, sing, sing, sing, sing  
We Are Everything and everyone is another time  
Open up your eyes, I've got a part, you pull up sunshine  
There it is, there it is, that magical feelings  
There it is, there it is, that magical feelings  
Feeling  
Just feeling  
Feeling  
Just feeling  
Feeling
