

# Don't Wait Too Long

Bob Welch

Night after night, day after day  
The dream I keep havin' just won't stay away  
And it's you that's the star with the famous name  
Gettin' all that you wanted taken away

Two headed coin, the other side is gettin' strong  
And saying good things come to those who wait  
But don't wait too long...

Hold out a candle, look in my eyes  
You'll see a prisoner, just learnin' to lie  
How does it go?  
Just like a whisper on the wind  
And the voice that gets louder before it disappears again

Two headed coin, the other side is gettin' strong  
And saying good things come to those who wait  
But don't wait too long...

Now that your famous, now that you're rich  
You'd love to be young, but you can't find that switch  
You've come a long way, you've got nowhere to go  
'Cause you've waited too long, and it's startin' to show
