

Justine

Bob Welch

Well, she's made me dangerous
Think i'm gonna cause myself some pain
Because you said justine just a minute ago
Well, please don't say that name

And if this world is really crazy
Well, she has made me more insane
I don't really care if she lives or she dies
But please don't say that name

Justine
Really had me yearning
I never thought i'd ache like this

Well, justine wait a minute longer
Baby please don't go like this
Cause it's bad enough that i've got to contend with this world
And ist evil ways
She had everything that i wanted but she had no shame
So please don't say that name

And if this world is goin?crazy
Well, she has made me more insane
Although i don't really care if she lives or she dies
But please don't say that name
