

Mystery Train

Bob Welch

Come on now mystery train
Bring her back to me again
I want to feel her hold me tight
And never be lonely at night
Roll down your mystery track
Pass the cities all blazin' black
I'm counting hours till she comes back
Not gonna be lonely again...

Oh I can hear you coming
Yeah & you're carrying something
Got my baby on your mystery train

Yeah come on now mystery train
Through the mountains blowing rain
But when you get there mystery train
It'll never be rainy again...
