

How About You

Bobby Bare

Some people worry 'bout tomorrow
Well, all my worried days are through
'Cause I just got mine all together
How about you girl, how about you?

Those loose ends have really been a draggin'
Since the day you said that we were through
But I managed to get mine all together
How about you babe, how about you?

How about your life back home with mama
Do you miss those things you've grown accustomed to
Well, I just thought I'd call to let you know I'm doing fine
And findin' lots of different things to do
How about you girl, how about you?

Well, sometimes as I sit here a thinking
About those silly things we used to do
And it stirs up some old familiar feelings
Now how about you girl, how about you?

Yeah, how about your life back home with mama
Do you miss those things you've grown accustomed to
Well, I just thought I'd call to let you know I'm doing fine
And findin' lots of different things to do
How about you girl, how about you?

How about you girl, how about you?
How about you girl, how about you?...
