

# Jesus Is the Only One That Loves Us

**Bobby Bare**

See the Sunday morning wino slowly shufflin' down the street  
The only God he knows clutched in his hand  
And heaven's just a drink from his bottle  
And Jesus Christ to him is just another man.

Yes, Jesus is the only one that loves us  
He'll forgive us when we sin  
Jesus is the only one that loves us  
Even when we think we haven't got a friend.

In cheap hotel room somewhere in Chicago  
A cheatin' husband takes his neighbor's wife  
Lord, that's not the way he did it in Korea  
Still it's just another way of takin' someone's life.

Around the corner in a cement city alley  
Hidin' from the cold Chicago rain  
While the Salvation Army band was playin'  
A junky rolls his sleeves up and lets his Saviour in.

Yes, Jesus is the only one that loves us  
He'll forgive us when we sin  
Jesus is the only one that loves us  
Even when we think we haven't got a friend.

Yes, Jesus is the only one that loves us  
He'll forgive us when we sin  
Jesus is the only one that loves us  
Even when we think we haven't got a friend...
