I wanna tell you but I know you know  
Sometimes the things you want are never quite enough  
If I had my choice I'd choose you everytime  
But Girl your wishes, they won't make you my.. new Girl.  
So fall in luck do I deserve you? Maybe not, but I just can't let go  
When you hold me girl..ooh I must surrender, cause a love like your is so sweet and strong, baby I've got to have it all

All Day and All nite  
Suga we don't wanna rush it now  
Let's take it nice and slow  
All Day and All nite  
Can we get up on the feeling Girl?  
Ohh woo

I want your love  
I want you, ya know?

First it started with a simple kiss  
Your hand in mine, no we didn't waste no time.  
Like Ice in Water, we were made for each other yeah  
Are you thirsty now? Shall we wait a while?  
Now I'm feeling like a child at play.  
Just close your eyes baby let me lead the way  
I got my love light on  
and it's shining for you girl  
I can't do without you  
What I'm gone do to..do to to you c'mon
