

Forever

Bobby Brown

My love
Your the only one that I live for
Finally found someone that I die for
Endlessly forever girl
I adore the tender love you given to me

Hope I never wake up from this love dream
Because I'm in another world that so free
But look what you've done to me
Cause I keep given my all to ya lady

I finally found
The woman I need
The ultimate world
Of you and me
And baby i feel
Your love
Let's make this forever
And ever

Incredible
Show me a new way to give love
Unconditional from my heart
And I'll do anything to make you smile
Smile, smile, smile for me

Baby
Break it down, break it down
Just, just
Just a little bit

I finally found
I finally found someone
I finally found, finally found, finally found

I finally found
The one I need (Let's make this forever)
I finally found
The one I need (Let's make this forever and ever)

I finally found
The one I need (Let's make this forever)
And baby I feel
Your love
Let's make this forever
And ever
