

She's My Lady

Bobby Brown

She's my lady
I found a lady and she's so fine
My baby, she's got the flavors and she's all mine
She keeps my lovin' when I'm not there
I know she loves me and I know that she cares

She's my lady, she drives me crazy, yeah
She's my lady, there ain't no maybes

She is the one who always stays right by my side
And we love to make love each and every night
They say in every life a little rain must fall
But she takes away the clouds so there's no rain at all

We don't care what people say about how we live it
We've come too far, we won't give in to ignorance
My baby promised me that she would leave me never
She'll be my lady forever and ever

She's my lady, she drives me crazy, yeah
She's my lady, there ain't no maybes, no

She is the woman I am always dreamin' of
I just can't get enough, I love her so much that I
I can't miss that, I'll never let her go
In this case there's no maybe, she's my lady, yeah

I'll keep on holding on, holding on, holding on
Don't you know that she's mine, mine, mine
My only love, I want to tell the world [Incomprehensible]
Yes, she's right for me, she's all I need

That girl is mine, all mine, all mine, all mine
Yeah, that girl is all mine, all mine, all mine
And I'm never gonna give her up
That girl is mine, all mine, all mine

She's my lady, she drives me crazy
She's my lady, ain't no maybes
She's my lady

She's my lady, she drives me crazy
She's my lady, ain't no maybes
She's my lady

She's my lady, she drives me crazy
She's my lady, ain't no maybes
She's my lady
