

# Take It Slow

Bobby Brown

I can't wait for the moment to kiss your tender lips  
But you told me we should take it slow  
I'm so in love with you, don't know what to do  
And these really blow in my mind  
And I know you know you got me going on  
And you're all that I need  
Let me get close to you  
I'll take it slow... Oh...

Slow, let's take it slow...You and me, baby...  
Slow, slow...Slow..., hey, girl..

After finding you, baby, how could I ask for more  
So I'm sending those roses, my love  
And I want you to know what I feel inside  
And you are always on my mind, girl  
Yes, it's true to be, the things you do to me  
It's got me begging for more, girl

I'm gonna let the world know about it  
How i could feel inside  
'Cause anybody know what I'm talking about, baby, whoa..., come on...

Slow, let's take it slow...You and me, baby..  
Slow, slow...Slow...,yeah  
Slow, let's take it slow...Can we take it slow...  
Slow..., slow...

These grooves, break it down, break it down, break it down...

Yo, first time I laid eyes on you, baby  
It's like I blew my mind, word  
It was like, was like heaven from above, you know what I'm saying?  
But now you see I got to have this written all over my face  
I never thought love could be this way  
You mean a lot to me, baby  
I want you to be my girl  
Can you do that?  
Please, Do that, baby, please...

You for me, I for you  
Girl, I know what to do, to you, to you, girl  
To you, girl  
I wanna tell the world, sing it  
You for me, I for you  
Girl, I know what to do, to you  
To you...  
I never thought...  
Baby... Whoa..., let's take it
