

# Take Me I'll Follow

Bobby Caldwell

Tired of feeling all by myself  
Being so different  
From everyone else  
Somehow you knew  
I needed your help  
Be my friend forever  
I never found  
My star in the night  
Filling my dream was  
Far from my sight  
You came along and  
I saw the light  
We'll be friends forever

CHORUS:

I can't face the  
Thought of you leaving  
So take me along  
I swear I'll be strong  
(If/when) you take me  
Wherever you go  
I wanna learn the things  
That you know  
Now that you  
Made me believe  
I want you to take me  
'Cause I long to be able  
To see the things  
That you see  
Know that whatever you do  
I'll follow you

Somebody must have  
Sent you to me  
What do I have  
You could possibly need  
All I can give is my guarantee  
We'll be friends forever

Repeat chorus

Teach me more in  
Each passing hour  
By your side  
I know I won't cower  
Is it true that  
You have the power  
To capture this moment in time

Take me wherever you go  
I wanna learn the things  
That you know  
Now that you made me believe  
I want you to take me  
'Cause I long to be able  
To see the things  
That you see

Know that  
Whatever you do  
I'll follow you  
(Repeat)
