

All the Way Home

Bobby Darin

We walked slow and hand in hand
All the way
Stealin' kisses in the dark
All the way
Honey, I gotta hand it to you
You made me wanna shout hallelujah!
All the way, all the way home

We watched the moon and counted stars
All the way
We knew our love will go real far
All the way
And as we passed a tree or two
We carved our name and 'I love you'
All the way, all the way home

With the great big moon above
The scene was set for romance
I said to myself, "Hot dog! This is my chance!"

...

...

Oh gosh, oh geez
My goodness, I felt so fine

She pressed her lips next to mine
All the way
I slipped that ring right on the finger
All the way
Cheak to cheak and hand in hand
The happiest couple in the land
All the way, all the way home

All the way, all the way home
All the way, all the way home
All the way, all the way home
