(Since You're Gone) I Can't Go On

Bobby Darin

What will I tell my hurtin' heart
To ease the pain and stop the tears?
I miss you so since we're apart
Since you're gone I can't go on

But there's one thing I cannot hide
Since you're gone I can't go on

All night long I walk the floor
Right or wrong, I can't take it any more
My friends may never know, 'cos I'll never show
I play my part so well that they can never tell

Just how I miss you and how I care
How much your love has meant to me
I see you face most everywhere
Since you're gone I can't go on

My friends may never know, 'cos I'll never show it
I play my part so well that they can never tell

Just how I miss you and how I care
How much your love has ment to me
I see you face most everywhere
Since you're gone I can't go on
Since you're gone I can't go on
