

## The End of Never

**Bobby Darin**

I will leave you at the end of never  
Come whatever Not before  
When this earth is chilled by the sun  
Then the love we've begun  
Will be over and done  
I will leave you far beyond forever  
Past the music heaven hums  
But I pray the end of never  
Never comes  
And I pray the end of never  
Never comes
