

Every Step Of The Way

Bobby Lewis

Every step of the way every minute of the day
Devotedly I'll always be beside you
The seasons change but not my heart time will never see us part
I'll always care and I'll always be there every step of the way

Though winds of sorrow make you cry I'll be around
To kiss away the tears before they reach the ground
Every step of the way every minute of the day
I will love you every step of the way
[guitar]

Every step of the way every minute of the day
I will love you every step of the way
Yes I will love you every step of the way
