Communication

Bobby Womack

I've got somethin' I wanna talk about to you Just another communication It could help the situation It's not the generation That keep gettin' on this nation

What I say, what I say What I say, what I say

We've made this world what it is today For the way we live and what we do and say The pitiable show in the eye of need You close my eyes every time I don't see

What I'm sayin', what I'm sayin' Well, look at here

Disgusting one another But still callin' me your brother

And listen to me now Now if you believe in what I am sayin' I'll be back, take a slam

Like I say, like I say, like I say Say, like I say, like I say

All we need is just a little communication That could make this world a better nation Just like the preachers congregation They're all in to his conversation

What I say, what I say

Oh, Lord, good God Don't put down your brother On the way he dress I am gettin' tired And sick of your mess

Ooh, and if you believe Oh Lord, I know you believe in what I am sayin' And I want every man to take a stand

All you gotta to is help me Help, help, help me Why don't you help me? Help me, help me, help me sing this song

Just a little communication Just a little communication If you see your brother fallin' down Give him a chance to make him come around

Got to, got to You've got to, I've got to I've got to, you've got to, you've got to Know it's gonna take me back to Do it again

Need just a little communication You can help this situation It's got the, it's got the new generation Just keep on tellin' down this nation

Communicate, it's a family affair Communicate, it's a family affair Communicate, baby

I know you hear me talkin' to you I know you hear me talkin' to you
