

I Still Love You

Bobby Womack

No baby, no, no, no, no, no
Please baby

Someday you'll be feelin'
Like I'm feelin' now
You give your heart to someone
Then they'll let you down

Girl, I hear you when you tell me
That you need to find yourself
But you really, really need it
You found someone else

That I told you once, told you twice
But you'll never ever take my advice
Just hold on to and girl, be strong
Baby, you can't go wrong

And baby, I still love you
I still need you, I still want you
Just show me that you need me too
Just as bad as I need you
Show me that you do
If what you say is true, baby

Someday you'll be sorry
And I will cross your mind
See the grass is never greener
Greener on the other side

I keep tellin' myself, 'It's over?
It give me too much pain
But I do, I do anything, girl
Just to get you back again

I still love you
I still need you, I still want you
Just show me that you need me too
Just as bad as I need you
Show me that you do
If what you say is true

Show me that you need me too
Just as bad as I need you
Show me that you do, show me
If what you say is true

I still love you
I still need you, I still want you
Do you want me bad as I need you?
Show me that you do

I still love you
I still need you, I still want you
What I wanna know
If you need me bad as I need you

I still love you
I still need you, I still want you
You know I need you bad

I still want you
I still need you, I still want you
Do you need me bad as I need you?
Tell me, don't you do?

I still love you
I still need you, I still want you
I still want you, need you, need you

I still love you
I still need you, I still want you
