

Say About Love

BoDeans

Well, they say that love makes the world go 'round
Keep it flyin' high, bring it down
Say about love, that's what they're sayin'

Well, time's gettin' bad, times getting tough
Say if you got love then you got enough
Say about love, that's what they're sayin'

That's what they say about love
That's what they're sayin', they say about love

And they write about love in lots of books
They say sometimes it just takes one look
Say about love, that's what they're sayin'

Now don't be a fool 'cause it has to last
Sometimes love, it can fade so fast
Say about love, that's what they're sayin'

That's what they say about love
Yeah, that's what they're sayin', they say about love

Yeah, say

And they say that love is all around
The only trouble is trying to track it down
Say about love, that's what they're sayin'

Love is the answer, the power supreme
Some say love's just a freaky scene
Say about love, that's what they're sayin'

That's what they say about love
That's what they say about love
Yeah, that's what they say about love
That's what they say, say about love
Say about love, they say about love
They say about love
